Dan,

These analysis will be assigned to various EPA regional labs (including our lab) and a few Tier IV labs. They are not to go CLP even though the methodology indicates otherwise. We will meet to discuss on how they be broken out tomorrow.

The OSC has approval for 7 day TAT.

Fred Foreman, Chief  
Technical Services Branch  
Office of Analytical Services & Quality Assurance

Subject: Dimock Drinking Water

Hi Rich,

The request submitted indicates a 7 day analytical TAT. You will need a written approval note from your branch chief or you can consider a 21 day analytical TAT.
